

Comprehensive Strategy

Putting the Pieces Together
for Positive Youth Development

Data 2014

COMPREHENSIVE STRATEGY

Facilitating the creation of resource tools for positive youth development

Progress Report: June 2014

For over 15 years, Comprehensive Strategy has been collecting and compiling data to provide the Siouxland area with a tool to track risk factors for youth problem behaviors in our community. This report provides the newest data available for 2014.

YOUTH PROBLEM BEHAVIORS are Substance Abuse, Delinquency, Teen Pregnancy, School Dropout, and Violence. Years of local, state, and national research indicate that these five youth problem behaviors interfere with positive youth development.

RISK FACTORS are research-based conditions that increase the likelihood that a child will develop one or more behavioral problems in adolescence. Priority risks for this community were identified, and data used to track those risks are included in this report.

This Report includes the following information:

- Logic Model for Comprehensive Strategy Planning Process
- Census Bureau Quick Facts
- Priority Risk Factors: Dakota and Woodbury Counties
 - Availability of Drugs
 - Early Initiation of the Problem Behavior
 - Economic Deprivation
 - Academic Failure in Late Elementary
 - Family History/Family Conflict
- Health Rankings: Dakota, Union, Woodbury Counties
- Youth Survey on Alcohol and Other Drugs: 6th, 8th, 10th, 12th grades, Tri-state area
- Sources of Risk Factor Data
- Planning Partners

Comprehensive Strategy holds quarterly community meetings to provide a forum for community discussion and education because we believe that community dialogue is critical to successful community planning. If you would like to be added to our invitation list, please contact us.

We sincerely wish to thank our Planning Partners and everyone who is working to make this a healthy, safe, and nurturing community for our youth and their families.

Barbara Aalfs, Chair
Comprehensive Strategy Council

Logic Model for Comprehensive Strategy Planning Process

	Vision: Our community will provide opportunities for youth and families to be healthy and resilient contributors to society.	
Long-term Outcome ↑	<h1>Positive youth development</h1>	
Intermediate Outcomes	Positive changes in youth behavior and attitudes: <ul style="list-style-type: none"> • Reduction of violence • Reduction of alcohol and other drug abuse • Reduction of delinquency • Reduction of teen pregnancy • Reduction of school drop-out 	
Short-term Outcomes ↑	Reduction of the presence of the following risk factors: <ul style="list-style-type: none"> • Availability of drugs • Extreme economic deprivation • Family history of the problem behavior/family conflict • Academic failure beginning in late elementary school • Early initiation of the problem behavior 	Increased protective factors that buffer the impact of risk factors in a child's life: <ul style="list-style-type: none"> • Individual characteristics <ol style="list-style-type: none"> 1. Gender 2. A resilient temperament 3. A positive social orientation 4. Intelligence • Bonding <ol style="list-style-type: none"> 1. Opportunities 2. Skills, and 3. Recognition • Healthy beliefs and clear standards <ol style="list-style-type: none"> 1. Wide, consistent support for those with whom youth are bonded 2. Consequences for not following standards are consistent
Outputs ↑	(achieved outputs) Ongoing data collection, analysis, monitoring, and evaluation (desired outputs) Targeted goals in the reduction of risk factors and problem behaviors (1-5,10,15 years)	
Strategies ↑	Comprehensive Strategy community strategies for programs and services: <ul style="list-style-type: none"> • Family focused strategies • School focused strategies • Individual focused strategies • Community focused strategies 	
Inputs ↑	Communities That Care planning model – collaborative community planning work groups and CS Council <ul style="list-style-type: none"> • Phase 1: Getting started by mobilizing the community and analyzing the current environment • Phase 2: Involving the community in vision setting and crafting a structure to support the planning effort • Phase 3: Developing a data-based profile of risk and protection • Phase 4: Creating a comprehensive youth development plan • Phase 5: Implementing the plan Community/state/federal/private sector financial, human and in-kind resources and support

Table 1. Basic Family Budgets for Two Families: Iowa Statewide Average

	Single Parent with One Child*	Married Couple with Two Children**
<u>Monthly Expenses</u>		
Child care	\$566	\$919
Clothing & household expenses	317	403
Food	382	765
Health care	469	985
Rent and utilities	681	924
Transportation	563	844
Monthly total	\$2,979	\$4,841
Annual Total Basic Expenses	\$35,749	\$58,086
<u>Income and Taxes</u>		
Before-tax earnings needed	\$41,731	\$67,724
Less: Income & payroll taxes	(6,261)	(9,696)
Plus: EITC & other credits	279	58
Net after-tax income	35,749	58,086
Family supporting hourly wage	\$20.87	\$16.93

*One child age 2 or 3

**One child age 2 or 3, one child age 6-10; both parents work full time.

Basic Needs Budget

The Iowa Policy Project’s Cost of Living in Iowa builds basic-needs budgets for various family types. These budgets represent a frugal living standard for what is needed to “survive,” not to “thrive.” This allows for rent, utilities, food prepared at home, child care, health care, transportation, clothing and other household necessities. It does **NOT** (emphasis added by hjk) include savings, loan payments, education expenses, vacation or any entertainment, or meals outside the home. Budgets shows the before-tax income for a family to meet basic needs without public assistance or work supports, and the hourly full-time wage need to produce that level of annual income.
